

Jamie Burkart

Technical Project Manager - Product Operations & Implementation

Brooklyn, NY | (816) 728-8685 | jamie.burkart@gmail.com | jamieburk.art | [LinkedIn](#) | [GitHub](#)

PROFILE

Implementation lead who builds operating structure for emerging public-facing technical work. Fourteen-plus years translating between stakeholders, product, documentation, implementation, and public systems. Strong in complex, resource-constrained civic, cultural, small-business, and public-interest environments where teams need clear requirements, coordinated decisions, usable workflows, adoption support, reliable handoffs, and durable documentation.

CORE CAPABILITIES

Product operations & implementation

Requirements, workflow mapping, user stories, acceptance criteria, decision logs, action tracking, rollout planning, UAT / QA, stakeholder updates, adoption, and handoffs.

Knowledge systems & documentation

Documentation architecture, meeting synthesis, source maps, shared drives, public guidance, resource libraries, reusable templates, and searchable reference systems.

Web, open data & civic technology

JavaScript / TypeScript, Node.js, React / Next.js, Ember.js, Python / Django, SQL, Git / GitHub, Docker / Dokku, QGIS, open-data workflows, APIs, and data-product requirements.

SELECTED IMPACT

- Led web, e-commerce, marketing, analytics, and operations improvements for Harry J. Epstein Company; Jamie reports that this work contributed during a period of 2x revenue growth while helping an 80-plus-year-old industrial business adapt to e-commerce.
- Built CallNYC.org as an archived, unofficial independent follow-on to the New York City Council's first CouncilStat hackathon, translating constituent-services data into resident-facing issue pages and next-step guidance; covered in Politico New York.
- Built and stewarded 30-plus pages of shared campaign memory and coordination infrastructure for a 2026 Commercial Rent Stabilization collaboration spanning Action Lab / Small Business United, Fair Rent NYC, NYC Artist Coalition, and partner networks.
- Built and maintained public web and knowledge infrastructure across NYC Artist Coalition campaigns for nightlife policy, cultural-space advocacy, storefront stability, and commercial rent stabilization, while preserving coalition and institutional credit.
- Co-built WOWList.org, a Python / Django and Ember.js community-calendar platform used by arts and music organizers across 35-plus active city-scene tags, with natural-language event entry, weekly digests, embeddable calendars, and low-cost deployment.
- Created Sunday Dinner / 196 Artists Residency as a repeatable trust-building and participation structure, documenting 300-plus gatherings and supporting 20-plus resident artists through invitation, hosting, onboarding, facilitation, documentation, and follow-through systems.

EXPERIENCE

THICK ARTS - Founder, Technical Project Manager & Web Systems Lead

2012-Present

New York, NY / Remote

- Lead an independent web strategy, design, and engineering studio delivering maintainable publishing systems, campaign hubs, e-commerce workflows, documentation infrastructure, resource libraries, and post-launch maintenance.
- Translate stakeholder needs into requirements, information architecture, content models, technical scopes, implementation plans, public interfaces, launch plans, maintenance workflows, adoption materials, and handoff documentation.
- Led digital transformation work for Harry J. Epstein Company across e-commerce, analytics, content, marketing, and operational workflows while preserving the company's distinctive institutional voice.

NYC Artist Coalition / Fair Rent NYC - Civic Systems, Coalition Operations & Policy Communications

2017-Present

New York, NY

- Build and steward campaign and knowledge infrastructure for commercial rent stabilization, storefront stability, cultural-space advocacy, public-data framing, and civic action.
- Create shared documentation and coordination systems including running minutes, action trackers, source maps, call scripts, QR pathways, public handouts, stakeholder follow-up systems, and report-back materials.
- Translate policy, public-data, and coalition needs into practical materials for work around Cabaret Law repeal, the Office of Nightlife, nightlife enforcement reporting, Commercial Rent Stabilization, and storefront stability.
- Developed policy-neutral public-data framing around commercial vacancy, occupancy, lease-cost indicators, storefront data, Local Law 157, and RPIE-derived aggregate reporting.

WOWList.org - Co-Founder, Product & Community Systems

2015-2020

New York, NY / Remote

- Co-built a community event-calendar and distribution platform organized around user-followed keyword communities, natural-language event entry, weekly digest emails, embeddable calendars, and low-cost deployment.

196 Artists Residency / Sunday Dinner - Founder & Systems Steward

2012-Present

Brooklyn, NY

- Built a care-forward residency and recurring community practice; supported 20-plus resident artists and documented 300-plus gatherings through intake, onboarding, scheduling, hospitality, facilitation, documentation, and continuity systems.

KC Town Hall LLC - Co-Founder & Project Manager, Historic Restoration / Mixed-Use Development

2015-2024

Kansas City, MO

- Co-led redevelopment planning and public-benefit documentation for adaptive reuse of a long-vacant historic building. On September 26, 2019, the City Council accepted the Board's recommendation and appropriated \$490,539 to the project account; the agreement was not completed, no funds were disbursed, and in 2024 the Council reappropriated the unused award.

EDUCATION & PROFESSIONAL DEVELOPMENT

AI Evals for Engineers & PMs - Shreya Shankar & Hamel Husain / Maven, 2026. Application-centric evals, error analysis, annotation workflows, traces, LLM failure modes, retrieval quality, and human-in-the-loop evaluation practice.

University of California, Santa Cruz - B.A., Film & Digital Media, Honors.

ADDITIONAL

Valid New York State driver's license. Authorized to work in the U.S.; no U.S. sponsorship required.
