PROFILE

Product operations and technical project leader with 14+ years translating customer and operational signals into product requirements, priorities, launch readiness, runbooks, adoption support, and post-launch learning. Connects Product, Engineering, Operations, communications, and leadership through visible risks, decision ownership, measurable operational impact, and durable handoffs.

EXPERIENCE

THICK ARTS - Founder, Technical Project Manager & Web Systems Lead

New York, NY / Remote | 2012-Present

- Lead product and implementation work from discovery through requirements, prioritization, delivery, quality assurance, public launch, adoption, measurement, maintenance, and handoff.
- Translate customer questions and operating friction into buildable work, clear owners, release checks, support materials, and reusable documentation.
- Led incremental e-commerce, search, analytics, content, marketing, and operations improvements for Harry J. Epstein Company, contributing to **2x revenue growth** while working within an 80+ year-old legacy business.
- Build decision records, onboarding guides, runbooks, launch checklists, status reports, retrospectives, and source-backed team memory.

WOWList.org - Co-Founder, Product & Community Systems

New York, NY / Remote | 2015-2020

- Co-built a Python / Django and Ember.js community-calendar with Richard Caceres from concept through launch and long-term stewardship.
- Translated organizer language into natural-language event entry, keyword communities, weekly digests, embeddable calendars, onboarding, support, and distributed maintainer workflows across roughly **35 city ecosystems**.
- Used historical production instrumentation to understand activity while keeping users, content, adoption, and community outcomes analytically distinct.

NYC Artist Coalition / Fair Rent NYC - Co-Founder, Civic Systems, Coalition Operations & Policy Communications Lead

New York, NY | 2017-Present

- Convert stakeholder needs, meetings, public testimony, policy sources, legal questions, media, and decisions into **30+ pages** of priorities, action trackers, public materials, ownership, and follow-through.
- Coordinate partners, policy and legal collaborators, elected officials and staff, communications, press, venues, and participants while surfacing operational risks and collective decision boundaries.

196 Artists Residency / Sunday Dinner - Founder & Systems Steward

Brooklyn, NY | Sunday Dinner: 2012-Present; Residency: 2020-Present

- Built repeatable intake, onboarding, scheduling, facilitation, documentation, and continuity systems supporting **20+ resident artists** and **300+ gatherings**.

KC Town Hall LLC - Co-Founder & Project Manager, Historic Restoration / Mixed-Use Development

Kansas City, MO | 2015-2024

- Co-led scope, sequencing, budgeting, design, public funding, vendors, field implementation, and public-benefit reporting for a 6,500 sq. ft. adaptive-reuse project; secured a **\$490,539 public funding award** through a successful CCED proposal and presentation.

SELECTED PRODUCT OPERATIONS EVIDENCE

- **CallNYC:** Built and launched an independent resident-facing civic product with **61 issue pathways**, translating administrative data into usable next steps.
- **Prioritization:** Evaluates user value, operational effort, risk, dependencies, reversibility, and evidence quality; does not claim formal B2B SaaS roadmap or go/no-go authority not held.
- **Responsible systems:** Builds privacy, accessibility review, ethical data handling, corrections, and human approval into delivery and team-memory workflows.

PROFESSIONAL DEVELOPMENT & EDUCATION

AI Evals for Engineers & PMs - Shreya Shankar & Hamel Husain / Maven, 2026. Evaluation design, error analysis, annotation workflows, failure modes, retrieval quality, and human-in-the-loop systems.

University of California, Santa Cruz - B.A., Film & Digital Media, Honors.

CORE SKILLS

Product Operations, launch readiness, Product and Engineering translation, operational impact, risk and dependency management, prioritization, requirements, runbooks, onboarding, adoption support, post-launch learning, metrics, revenue / retention / efficiency / cost framing, JavaScript / TypeScript, React / Next.js, Ember.js, Python / Django, SQL, Git / GitHub, Docker / Dokku.

Authorized to work in the U.S.; no sponsorship required. Valid New York State driver's license.
