

Jamie Burkart

Technical Project Manager - Product Operations & Implementation

Brooklyn, NY | (816) 728-8685 | jamie.burkart@gmail.com

[Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFILE

Technical project manager with 14+ years creating operating structure between stakeholders, product, documentation, implementation, and public-facing systems. Strong in complex, resource-constrained, early-stage, civic, small-business, cultural, and public-interest environments where teams need someone to clarify the work, translate between technical and nontechnical audiences, coordinate stakeholders, and leave behind usable workflows, reliable handoffs, adoption support, and durable documentation.

CORE CAPABILITIES

- **Product operations & implementation** - define requirements, map workflows, write user stories and acceptance criteria, maintain decision logs and action trackers, coordinate rollout planning, support UAT / QA, communicate stakeholder updates, prepare adoption materials, and document handoffs.
- **Knowledge systems & documentation** - design documentation architecture, synthesize meetings into decisions and next steps, structure shared drives, create source maps, maintain public guidance, build resource libraries, produce reusable templates, and make reference systems searchable and durable.
- **Web, open-data & civic technology** - build and maintain public-facing tools using JavaScript / TypeScript, Node.js, React / Next.js, Ember.js, Python / Django, SQL, Git / GitHub, Docker / Dokku, QGIS, open-data workflows, dataset documentation, and API / data-product requirements.

SELECTED IMPACT

- Led web, e-commerce, marketing, analytics, and operations improvements for [Harry J. Epstein Company](#), helping an 80+ year-old industrial business translate trusted product knowledge into customer-facing e-commerce and maintainable digital workflows. KCUR reported that online sales accounted for half of the business by 2016; that company context is not presented as Jamie's sole result.
- Built [CallNYC.org](#) as an independent follow-on to the New York City Council's first CouncilStat hackathon, translating constituent-services data into resident-facing issue pages and next-step guidance; covered in Politico New York.
- Built and stewarded [30+ pages of shared campaign memory](#) for a 2026 Commercial Rent Stabilization collaboration, synthesizing meetings, decisions, action items, legal and policy questions, media assets, stakeholder next steps, and city and state strategy lanes.
- Created a [legislative source map and provenance redline](#) tracing Commercial Rent Stabilization bill language across city and state lineages; drafted privacy-preserving commercial vacancy, occupancy, and lease-cost data materials for city stakeholders.
- Co-built [WOWList.org](#) with Richard Caceres, a Python / Django and Ember.js community-calendar platform organized around followable keyword communities. A July 2017 snapshot records 1,846 users, 16,142 posts/events, and at least 50 geocoded posts/events in each of 35 city/region groups; this measures recorded activity, not adoption.
- Co-hosted [Sunday Dinner](#) with Julia Fredenberg, with a working record documenting 300+ numbered gatherings; separately founded [196 Artists Residency](#), supporting 20+ resident artists through invitation, onboarding, hospitality, documentation, and continuity systems.

EXPERIENCE

THICK ARTS - Founder, Technical Project Manager & Web Systems Lead

New York, NY / Remote | 2012-Present

- Lead an independent web strategy, design, and engineering studio delivering maintainable publishing systems, campaign hubs, e-commerce workflows, documentation infrastructure, resource libraries, and post-launch maintenance.
- Translate stakeholder needs into requirements, information architecture, content models, technical scopes, implementation plans, public-facing interfaces, launch plans, maintenance workflows, adoption materials, and handoffs.
- Led long-running digital transformation work for Harry J. Epstein Company across e-commerce, analytics, content, marketing, and operational workflows while preserving the company's distinctive institutional voice.

NYC Artist Coalition / FairRentNYC - Co-Founder, Civic Systems, Coalition Operations & Policy Communications Lead

New York, NY | 2017-Present

- Build and steward campaign and knowledge infrastructure for commercial rent stabilization, storefront stability, cultural-space advocacy, public-data framing, and civic action.
- Create and maintain shared documentation and coordination systems, including running minutes, action trackers, source maps, call scripts, QR pathways, public handouts, stakeholder follow-up systems, and report-back materials.
- Translate policy, public-data, and coalition needs into practical materials for collective campaigns around Cabaret Law repeal, creation of New York City's first Office of Nightlife, nightlife-enforcement reporting, Commercial Rent Stabilization, and storefront stability.
- Develop policy-neutral public-data framing around commercial vacancy, occupancy, lease-cost indicators, storefront data, Local Law 157, and RPIE-derived aggregate reporting.

WOWList.org - Co-Founder, Product & Community Systems

New York, NY / Remote | 2015-2020

- Co-built a community event-calendar and distribution platform organized around user-followed keyword communities; the surviving archive documents product mechanisms, support activity, and a bounded July 2017 database snapshot, not unique-user adoption or cultural impact.

Sunday Dinner - Co-Host & Systems Steward

Brooklyn, NY | 2012-Present

- Co-host with Julia Fredenberg a recurring participation practice built through invitations, introductions, hosting rhythms, documentation, and handoffs; a working record documents 300+ numbered gatherings, not unique attendees.

196 Artists Residency - Founder & Systems Steward

Brooklyn, NY | 2020-Present

- Founded a care-forward residency and built proposal-review, scheduling, pre-arrival planning, independent-access, hospitality, documentation, and continuity practices supporting 20+ resident artists.

KC Town Hall LLC - Co-Founder & Project Manager, Historic Restoration / Mixed-Use Development

Kansas City, MO | 2015-2024

- Presented a mixed-use neighborhood redevelopment proposal to Kansas City's CCED Board. Official records document a unanimous recommendation and a later \$490,539 Council appropriation with authorization for funding-agreement negotiations; the project later withdrew and the unused allocation was reappropriated.

EDUCATION & PROFESSIONAL DEVELOPMENT

AI Evals for Engineers & PMs - Shreya Shankar & Hamel Husain / Maven, 2026. Application-centric evals, error analysis, annotation workflows, traces, LLM failure modes, retrieval quality, and human-in-the-loop evaluation practice.

University of California, Santa Cruz - B.A., Film & Digital Media, Honors.

ADDITIONAL

Valid New York State driver's license. Authorized to work in the U.S.; no U.S. sponsorship required.
