

Jamie Burkart

PRODUCT OPERATIONS MANAGER | LAUNCH READINESS, IMPLEMENTATION & OPERATIONAL SYSTEMS

Brooklyn, NY • (816) 728-8685 • jamie.burkart@gmail.com
[Portfolio](#) • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Product operations and technical project manager with 14+ years turning ambiguous product, customer, and operational inputs into clear plans, readiness criteria, public launches, adoption workflows, documentation, and post-launch learning. Partners across product, engineering, operations, communications, customers, and community stakeholders to surface downstream impact early, sequence dependencies, make tradeoffs legible, and keep owners accountable through follow-through. Combines hands-on web systems fluency, analytics, facilitation, customer care, and scalable runbook and knowledge-system design in fast-moving, resource-constrained environments.

CORE SKILLS

- **Launch readiness:** Work-back plans, milestones, readiness criteria, risk and dependency tracking, release checklists, UAT/QA, decision support for go/no-go recommendations, rollout communications, adoption, and post-launch issue follow-up.
- **Product-to-operations translation:** Translate roadmaps, sprint work, technical constraints, customer needs, and public feedback into operational requirements, workflows, documentation, support preparation, and accountable owners.
- **Prioritization and learning:** Synthesize requests into problem statements and use cases; assess revenue, efficiency, risk, customer impact, and evidence quality; document tradeoffs, outcomes, limitations, and retrospectives.
- **Scalable operating systems:** Runbooks, playbooks, templates, status reporting, decision logs, action trackers, onboarding, shared knowledge, and human-correctable AI-assisted workflows.

PROFESSIONAL EXPERIENCE

INDEPENDENT PRACTICE / THICK ARTS LLC — Founder, Product Operations & Technical Project Manager / Web Systems Lead

New York, NY / Remote | 2009–Present

- Lead public-facing web products and implementation work from discovery and requirements through scope, sequencing, technical delivery, testing, launch, adoption support, issue resolution, documentation, and handoff.
- Translate among product goals, engineering constraints, customer language, content, analytics, marketing, and operations; preserve decisions, release expectations, reusable patterns, and post-launch learning.
- From 2009–2015, led work for [Harry J. Epstein Company](#); in 2012, formalized the practice as Thick Arts LLC, with HJE as the LLC's first client. Led e-commerce, analytics, content, marketing, and operational improvements that contributed to a period of 2x revenue growth while helping an 80+ year-old business modernize product discovery, ordering, promotions, content, and maintenance workflows.

WOWList.org — Co-Founder, Product & Community Systems

New York, NY / Remote | 2015–2020

- Co-founded, co-built, and operated with Richard Caceres a natural-language community-calendar platform, connecting product definition and implementation with organizer onboarding, support, public communication, weekly email, embeds, adoption, and low-cost production operations.
- Reached a July 2017 production snapshot of 1,846 users, 16,142 posts/events, and 35 city-region keys with at least 50 posts. Use these as scale and activity evidence—not retention, revenue, or causal outcome claims.
- Built repeatable organizer-facing workflows and support materials so distributed maintainers could publish, curate, embed, and circulate local calendars without a centralized editorial bottleneck.

NYC Artist Coalition / FairRentNYC — Co-Founder, Civic Systems & Coalition Operations Lead

New York, NY | 2017–Present

- Translate policy, public-data, communications, partner, and community inputs into prioritized workstreams, public interfaces, launch materials, stakeholder follow-up, and maintained campaign systems.
- Built and stewarded 30+ pages of shared campaign memory connecting running minutes, decisions, action items, risks, media assets, source maps, and city/state strategy lanes while keeping private coalition records offline.

CallNYC.org — Civic-Tech Builder & Product Translator

New York, NY | 2016

- Built and publicly launched an independent resident-facing follow-on to the New York City Council's first CouncilStat hackathon, translating constituent-services open data into issue pathways and next-step guidance; covered by Politico New York in 2016.

KC Town Hall LLC — Co-Founder & Project Manager

Kansas City, MO | 2015–2024

- Coordinated planning, vendors, public documentation, municipal compliance, and field dependencies for an approximately 6,500 sq. ft. adaptive-reuse project; co-developed a successful \$490,539 public funding request and later transitioned the project to a mission-aligned organization.

196 Artists Residency / Sunday Dinner — Founder & Systems Steward

Brooklyn, NY | 2012–Present

- Created repeatable onboarding, scheduling, hospitality, facilitation, documentation, and continuity systems across 300+ gatherings and 20+ resident artists, joining operational consistency with care for individual needs.

EDUCATION & PROFESSIONAL DEVELOPMENT

University of California, Santa Cruz — B.A., Film & Digital Media, Honors

AI Evals for Engineers & PMs — Shreya Shankar & Hamel Husain / Maven, 2026; application-centric evals, error analysis, annotation, traces, retrieval quality, and human-in-the-loop evaluation.

ADDITIONAL INFORMATION

Authorized to work in the United States; no sponsorship required. Valid New York State driver's license.
