

Jamie Burkart

TECHNICAL OPERATIONS MANAGER | PUBLIC-INTEREST TECHNOLOGY, DELIVERY & TEAM SYSTEMS

Brooklyn, NY • (816) 728-8685 • jamie.burkart@gmail.com

[Portfolio](#) • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Technical operations and project manager with 14+ years building the operating structure that helps public-facing teams move from ambiguity through delivery, launch, adoption, and continuous improvement. Coordinates concurrent work, risks, dependencies, decisions, documentation, onboarding, reporting, and handoffs across technical, policy, operational, executive, and community stakeholders. Brings hands-on web systems fluency, calm facilitation, candid status communication, and a public-service commitment to usable technology, durable in-house capacity, digital equity, privacy, accessibility, and collective learning.

CORE SKILLS

- **Delivery coordination:** Multi-project planning, sequencing, milestones, ownership, risk and dependency tracking, action and decision logs, stakeholder updates, escalation, launch coordination, and accountable follow-through.
- **Team operating systems:** Meeting rhythms, status reporting, decision records, source maps, onboarding guides, handbooks, runbooks, templates, resource libraries, retrospectives, and continuous process improvement.
- **Cross-functional translation:** Connect product, engineering, design, security, legal and policy questions, communications, operations, executives, vendors, public officials, and community partners without flattening their different responsibilities.
- **Technical and evidence fluency:** JavaScript/TypeScript, React/Next.js, Ember.js, Python/Django, SQL/PostgreSQL, Git/GitHub, Docker/Dokku, APIs, open data, analytics, AI-assisted evaluation, privacy-conscious source governance, and human review.

PROFESSIONAL EXPERIENCE

INDEPENDENT PRACTICE / THICK ARTS LLC — Founder, Technical Operations & Project Manager / Web Systems Lead

New York, NY / Remote | 2009–Present

- Lead independent web strategy, product, design, engineering, and maintenance engagements, converting ambiguous needs into scope, work plans, requirements, risk registers, public releases, adoption materials, operating documentation, and durable handoffs.
- Coordinate delivery across concurrent projects; surface blockers early; maintain clear status, decision, action, and release records; support UAT/QA; and improve working systems through retrospectives without adding unnecessary ceremony.
- From 2009–2015, led work for [Harry J. Epstein Company](#); in 2012, formalized the practice as Thick Arts LLC, with HJE as the LLC's first client. Led e-commerce, analytics, content, marketing, and operational improvements that contributed to a period of 2x revenue growth while helping an 80+ year-old business adapt its public and internal systems.

NYC Artist Coalition / FairRentNYC — Co-Founder, Civic Systems, Coalition Operations & Policy Communications Lead

New York, NY | 2017–Present

- Coordinate campaign websites, public meetings, policy communications, stakeholder follow-up, source material, public-data framing, and city/state workstreams across advocates, cultural-space operators, elected officials, staff, technical collaborators, and partner organizations.
- Built and stewarded 30+ pages of shared campaign memory for a 2026 Commercial Rent Stabilization collaboration, connecting running minutes, decisions, action items, risks, legal and policy questions, media assets, and next steps into one maintained operating record.
- Facilitate challenging meetings and represent collective work in testimony, presentations, and press while keeping private notes, legal review, contact data, and sensitive strategy out of public systems.

WOWList.org – Co-Founder, Product & Community Systems

New York, NY / Remote | 2015–2020

- Co-founded, co-built, and operated with Richard Caceres a Python/Django and Ember.js community platform, coordinating technical implementation, product operations, organizer onboarding, support, public communication, distribution, and low-cost hosting.
- Reached a July 2017 production snapshot of 1,846 users, 16,142 posts/events, and 35 city-region keys with at least 50 posts. These counts establish historical scale, not measured resident outcomes.

CallNYC.org – Civic-Tech Builder & Product Translator

New York, NY | 2016

- Built and launched an independent resident-facing civic prototype that translated CouncilStat constituent-services open data into issue pathways, district context, and next-step guidance; covered by Politico New York in 2016.

KC Town Hall LLC – Co-Founder & Project Manager

Kansas City, MO | 2015–2024

- Coordinated planning, vendors, field dependencies, public-benefit documentation, municipal reporting, and M/WBE and CREO compliance for an approximately 6,500 sq. ft. adaptive-reuse project.
- Helped operate Tired of Tires, a recurring free resident service connecting intake, field collection, volunteers, and a City recycling handoff; public records document Jamie's participation in pickup operations.
- Co-developed a successful \$490,539 public funding request, served as the City's named developer/presenter, remained a documented point of contact through compliance progress, and later transitioned the project to a mission-aligned organization.

196 Artists Residency / Sunday Dinner – Founder & Systems Steward

Brooklyn, NY | 2012–Present

- Created repeatable invitation, onboarding, scheduling, facilitation, documentation, and continuity systems across 300+ gatherings and 20+ resident artists.

EDUCATION & PROFESSIONAL DEVELOPMENT

University of California, Santa Cruz – B.A., Film & Digital Media, Honors

AI Evals for Engineers & PMs – Shreya Shankar & Hamel Husain / Maven, 2026; evaluation design, error analysis, annotation, traces, retrieval quality, and human-in-the-loop review.
