PROFILE

Hands-on product and technical project leader with 14+ years moving public-facing products from ambiguous needs through problem framing, participatory discovery, prioritization, scoping, implementation, public launch, measurement, and handoff. Builds resident-facing civic tools and community platforms in complex environments, translating imperfect evidence and stakeholder needs into version one decisions, cross-functional plans, accountable delivery, and durable institutional knowledge.

EXPERIENCE

THICK ARTS - Founder, Technical Project Manager & Web Systems Lead

New York, NY / Remote | 2012-Present

- Lead public-facing product work end-to-end through discovery, requirements, scope, architecture, implementation, quality assurance, launch, measurement, maintenance, and handoff.
- Coordinate design, engineering, operations, policy, communications, and executive stakeholders; clarify decisions, dependencies, tradeoffs, deliverables, and outcomes.
- Led incremental product, e-commerce, analytics, content, and operations improvements for Harry J. Epstein Company, contributing to **2x revenue growth** within an 80+ year-old business.
- Build source-backed knowledge systems that preserve evidence, corrections, privacy, collective credit, and human review while making team memory usable.

NYC Artist Coalition / Fair Rent NYC - Co-Founder, Civic Systems, Coalition Operations & Policy Communications Lead

New York, NY | 2017-Present

- Translate listening meetings, public testimony, policy sources, legal questions, media assets, and stakeholder decisions into **30+ pages** of shared campaign infrastructure, public guidance, and actionable workstreams.
- Coordinate coalition partners, elected officials and staff, communications, press, venues, and participants while keeping decision ownership, privacy, and collective credit explicit.

WOWList.org - Co-Founder, Product & Community Systems

New York, NY / Remote | 2015-2020

- Co-built a Python / Django and Ember.js community calendar with Richard Caceres from concept through launch and stewardship, using natural-language event entry, keyword communities, weekly digests, embeddable calendars, and production instrumentation.
- Led product definition, organizer onboarding, adoption support, and distributed maintainer relationships across roughly **35 city ecosystems**.

196 Artists Residency / Sunday Dinner - Founder & Systems Steward

Brooklyn, NY | Sunday Dinner: 2012-Present; Residency: 2020-Present

- Built repeatable intake, onboarding, scheduling, facilitation, privacy-aware documentation, and continuity systems supporting **20+ resident artists** and **300+ gatherings**.

KC Town Hall LLC - Co-Founder & Project Manager, Historic Restoration / Mixed-Use Development

Kansas City, MO | 2015-2024

- Co-led community listening, scope, sequencing, budgeting, design, public funding, vendors, field implementation, and public-benefit reporting for a 6,500 sq. ft. adaptive-reuse project; secured a **\$490,539 public funding recommendation** through a successful CCED proposal and presentation.

SELECTED PRODUCT EVIDENCE

- **CallNYC:** Built and launched an independent follow-on to the New York City Council's first CouncilStat hackathon, translating constituent-services data into **61 resident-facing issue pathways**, Council member context, and next-step guidance; covered in [Politico New York](#).
- **Responsible delivery:** Familiarity with WCAG 2.1 AA and Section 508 and their implications for product scope and tradeoffs; builds accessibility review, privacy, ethical data handling, and human approval into release decisions without claiming audited compliance.
- **Product learning:** Defines success measures, interprets product and operational metrics, documents learning, and distinguishes outputs, adoption, service quality, and resident outcomes.

PROFESSIONAL DEVELOPMENT & EDUCATION

AI Evals for Engineers & PMs - Shreya Shankar & Hamel Husain / Maven, 2026. Application-centric evaluations, error analysis, annotation workflows, traces, failure modes, retrieval quality, and human-in-the-loop evaluation.

University of California, Santa Cruz - B.A., Film & Digital Media, Honors.

CORE SKILLS

Product briefs, decision memos, user stories, acceptance criteria, minimum viable product (MVP) and pilot scope, user research planning, user acceptance testing (UAT), post-launch retrospectives, JavaScript / TypeScript, Node.js, React / Next.js, Ember.js, Python / Django, SQL, Git / GitHub, Docker / Dokku, QGIS, API requirements, open-data workflows.

Authorized to work in the U.S.; no sponsorship required. Valid New York State driver's license.
