
Jamie Burkart

Technical Project Manager - Product Operations & Implementation

Brooklyn, NY | (816) 728-8685 | jamie.burkart@gmail.com

Portfolio: <https://jamieburk.art> | LinkedIn: <https://linkedin.com/in/jamie-burkart> | GitHub: <https://github.com/openhouse>

PROFILE

Technical project manager with 14+ years creating operating structure between stakeholders, product, documentation, implementation, and public-facing systems. Strong in complex, resource-constrained, early-stage, civic, small-business, cultural, and public-interest environments where teams need someone to clarify the work, translate between technical and nontechnical audiences, coordinate stakeholders, and leave behind usable workflows, reliable handoffs, adoption support, and durable documentation.

CORE CAPABILITIES

- Product operations and implementation - define requirements, map workflows, write user stories and acceptance criteria, maintain decision logs and action trackers, coordinate rollout planning, support UAT / QA, communicate stakeholder updates, prepare adoption materials, and document handoffs.
- Knowledge systems and documentation - design documentation architecture, synthesize meetings into decisions and next steps, structure shared drives, create source maps, maintain public guidance, build resource libraries, produce reusable templates, and make reference systems searchable and durable.
- Web, open-data and civic technology - build and maintain public-facing tools using JavaScript / TypeScript, Node.js, React / Next.js, Ember.js, Python / Django, SQL, Git / GitHub, Docker / Dokku, QGIS, open-data workflows, dataset documentation, and API / data-product requirements.

SELECTED IMPACT

- Led web, e-commerce, marketing, analytics, and operations improvements for Harry J. Epstein Company, contributing to 2x revenue growth while helping an 80+ year-old legacy industrial business adapt to e-commerce.
- Built CallNYC.org after the New York City Council's first civic-data hackathon, translating constituent-services open data into resident-facing find help / next steps guidance; covered in Politico New York.
- Built and stewarded 30+ pages of shared campaign-memory and coordination infrastructure for a 2026 Commercial Rent Stabilization collaboration across Action Lab / Small Business United, Fair Rent NYC, NYC Artist Coalition, and partner networks.
- Created a legislative source map and provenance redline tracing Commercial Rent Stabilization bill language from NYC Council Intro 93 through Fair Rent NYC recommendations, Small Business Jobs Survival Act-derived provisions, and Albany Senate Bill S8319 revisions.
- Co-built WOWList.org with Richard Caceres, a Python / Django + Ember.js community-calendar platform adopted by DIY arts and music organizers across roughly 35 city ecosystems.
- Created Sunday Dinner / 196 Artists Residency as a repeatable trust-building and participation structure, documenting 300+ gatherings and supporting 20+ resident artists.

EXPERIENCE

THICK ARTS - Founder, Technical Project Manager & Web Systems Lead

New York, NY / Remote | 2012-Present

- Lead an independent web strategy, design, and engineering studio delivering maintainable publishing systems, campaign hubs, e-commerce workflows, documentation infrastructure, resource libraries, and post-launch maintenance.
- Translate stakeholder needs into requirements, information architecture, content models, technical scopes, implementation plans, public-facing interfaces, launch plans, maintenance workflows, adoption materials, and handoff documentation.
- Led digital transformation work for Harry J. Epstein Company, improving e-commerce, analytics, content, marketing, and operational workflows while preserving the company's distinctive institutional voice.

NYC Artist Coalition / FairRentNYC - Co-Founder, Civic Systems, Coalition Operations & Policy Communications Lead

New York, NY | 2017-Present

- Build and steward campaign and knowledge infrastructure for commercial rent stabilization, storefront stability, cultural-space advocacy, public-data framing, and civic action.
- Create and maintain shared documentation and coordination systems, including running minutes, action trackers, source maps, call scripts, QR pathways, public handouts, stakeholder follow-up systems, and report-back materials.
- Translate policy, public-data, and coalition needs into practical materials for campaigns around Cabaret Law repeal, creation of New York City's first Office of Nightlife, nightlife enforcement reporting, Commercial Rent Stabilization, and storefront stability.

WOWList.org - Co-Founder, Product & Community Systems

New York, NY / Remote | 2015-2020

- Co-built a community event-calendar and distribution platform organized around user-followed keyword communities; secured adoption by local calendar organizers in city ecosystems including Chicago, Seattle, Santa Barbara, New York, and the Bay Area.

196 Artists Residency / Sunday Dinner - Founder & Systems Steward

Brooklyn, NY | Sunday Dinner: 2012-Present; Residency: 2020-Present

- Founded a care-forward residency and recurring community-building practice; supported 20+ resident artists and documented 300+ gatherings through intake, onboarding, scheduling, hospitality, facilitation, documentation, and continuity systems.

KC Town Hall LLC - Co-Founder & Project Manager, Historic Restoration / Mixed-Use Development

Kansas City, MO | 2015-2024

- Co-led redevelopment planning and public-benefit documentation for adaptive reuse of a long-vacant approximately 6,500 sq. ft. historic building into four commercial spaces and three homes; secured a \$490,539 public funding recommendation.

EDUCATION & PROFESSIONAL DEVELOPMENT

- AI Evals for Engineers & PMs - Shreya Shankar & Hamel Husain / Maven, 2026.
Application-centric evals, error analysis, annotation workflows, traces, LLM failure modes, retrieval quality, and human-in-the-loop evaluation practice.
- University of California, Santa Cruz - B.A., Film & Digital Media, Honors.

ADDITIONAL

Valid New York State driver's license. Authorized to work in the U.S.; no U.S. sponsorship required.
