

Jamie Burkart

TECHNICAL PROJECT MANAGER | PRODUCT OPERATIONS, IMPLEMENTATION & CIVIC TECHNOLOGY

Brooklyn, NY • (816) 728-8685 • jamie.burkart@gmail.com

[Portfolio](#) • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Technical project, product operations, and implementation leader with 14+ years turning ambiguous public-facing work into usable systems. Leads the full product lifecycle from qualitative and quantitative research, business analysis, and roadmaps through requirements, prioritization, implementation, launch, adoption, KPIs, and post-mortem learning. Connects residents, customers, organizers, policy stakeholders, designers, engineers, operations teams, and senior decision-makers through clear plans, calm facilitation, accountable delivery, and durable handoffs.

CORE SKILLS

- **Product and implementation:** Discovery, customer implementation, workshops, product demonstrations, current- and future-state workflows, user stories, acceptance criteria, system requirements, roadmap sequencing, version-one scope, configuration and migration planning, UAT/QA, deployment risk, time to first value, change management, and reusable playbooks.
- **Project and campaign operations:** Plans, schedules, budget and resource tracking, risk and issue management, coalition coordination, advocacy campaign operations, research and talking points, internal communications, executive reporting, retrospectives, and process improvement.
- **Data and responsible technology:** KPIs, analytics, production instrumentation, qualitative and quantitative synthesis, privacy-conscious and accessibility-aware delivery, human-reviewed AI workflows, decision lineage, and source governance.
- **Technical fluency — current working set:** JavaScript/TypeScript, React/Next.js, SQL, Node.js, Git/GitHub, Docker/Dokku, APIs, open-data workflows, and low-cost cloud infrastructure. Historical tools are labeled in their case studies rather than presented as current practice.

PROFESSIONAL EXPERIENCE

THICK ARTS LLC — Founder, Product & Technical Project Manager / Web Systems Lead

New York, NY / Remote | 2012–Present; independent client work began 2009

- Lead web product and systems implementation from discovery and business analysis through requirements, scope, schedules, technical delivery, quality assurance, public launch, analytics, maintenance, and handoff.
- Coordinate clients, collaborators, design, engineering, operations, communications, and leadership across concurrent work; maintain plans of record for decisions, dependencies, risks, owners, and next actions.
- Led e-commerce, content, analytics, and operating improvements for Harry J. Epstein Company from 2009–2015, contributing to **2x revenue growth** while supporting an incremental transition from legacy workflows.
- Build decision records, onboarding guides, runbooks, launch checklists, status reports, retrospectives, and source-backed team memory that make implementation learning reusable.

[NYC Artist Coalition](#) / [Fair Rent NYC](#) — Co-Founder, Civic Systems, Coalition Operations & Policy

Communications Lead

New York, NY | 2017–Present

- Lead coalition operations for cultural-space and commercial-rent advocacy, translating stakeholder listening, public testimony, policy research, legal questions, elected-official engagement, and press work into buildable plans, public forums, campaign systems, calls to action, and sustained follow-through.
- Built and stewarded **30+ pages** of shared Commercial Rent Stabilization team memory connecting running minutes, decisions, action items, media assets, public-data framing, and city/state strategy while preserving confidential boundaries and collective credit.
- Facilitate challenging meetings; prepare public remarks, briefing materials, research and talking points, internal communications, executive reporting, and public handouts; distinguish Jamie's contribution, coalition action, and government authority.

[WOWList.org](#) — Co-Founder, Product & Community Systems

New York, NY / Remote | 2015-2020

- Co-founded, co-built, and operated with Richard Caceres a natural-language community-calendar platform that replaced a complex event form with collaboratively editable text, followable keyword communities, weekly digests, profiles, embeds, and calendar connections.
- Connected participatory discovery to product requirements, releases, onboarding, support, adoption, production instrumentation, and a feedback loop across a distributed maintainer network.
- Operated across 35 city ecosystems, supporting local organizers who used WOW List to run community calendars, websites, and email lists for their own scenes.

[CallNYC.org](#) — Civic-Tech Builder & Product Translator

New York, NY | 2016

- Built and launched an independent civic product translating constituent-services data into **61 issue pathways**, district context, and resident next steps; covered in [Politico New York](#).
- Took the prototype from problem framing and information architecture through cross-agency context gathering, build, testing, public release, maintenance, and archival stewardship.

[KC Town Hall LLC](#) — Co-Founder & Project Manager, Historic Restoration / Mixed-Use Development

Kansas City, MO | 2015-2024

- Co-led planning, public-benefit documentation, vendor coordination, municipal compliance, and field implementation for adaptive reuse of an approximately **6,500 sq. ft.** historic building into four commercial spaces and three homes.
- Helped deliver Tired of Tires, a recurring resident service connecting print and web outreach, form and phone intake, scheduled field collection, City recycling coordination, volunteer participation, and public result reporting; a project-maintained tracker records operational metrics of **1,970 tires** across monthly entries from May 2019 through September 2022 and estimates **\$44,890 in avoided disposal fees** under its stated assumptions.
- Secured a **\$490,539 public funding award** by co-developing KC Town Hall's successful CCED proposal and serving as the City's named developer/presenter for the exact request, then later transitioned the project to a mission-aligned organization.

EDUCATION & PROFESSIONAL DEVELOPMENT

University of California, Santa Cruz — B.A., Film & Digital Media, Honors

AI Evals for Engineers & PMs — Shreya Shankar & Hamel Husain / Maven, 2026; application-centric evals, error analysis, annotation, retrieval quality, and human-in-the-loop evaluation.

Authorized to work in the United States; no sponsorship required. Valid New York State driver's license.
