

Jamie Burkart

Product Manager | Resident-Facing Digital Services & Implementation

Brooklyn, NY | (816) 728-8685 | jamie.burkart@gmail.com

[Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFILE

Product and technical project manager with 14+ years taking public-facing products and services from problem framing and research through roadmaps, requirements, implementation, launch, measurement, and iteration. Synthesizes stakeholder listening, public data, analytics, and technical constraints into validated user problems, sequenced decisions, user stories, acceptance criteria, and plain-language plans. Works across residents, organizers, program teams, designers, engineers, operations, policy stakeholders, and senior decision-makers. Brings hands-on technical fluency with privacy-conscious, accessibility-aware delivery in legacy and resource-constrained environments.

CORE SKILLS

- **Product lifecycle:** Problem framing, discovery, public and user research, analytics synthesis, roadmaps, requirements, user stories, acceptance criteria, system requirements, MVP scoping, prioritization, prototyping, UAT/QA, launch, KPIs, and post-launch learning.
- **Cross-functional delivery:** Product ownership, stakeholder alignment, designer and engineer coordination, program and agency translation, plain-language briefings, rollout planning, risk and dependency tracking, adoption, and durable handoffs.
- **Resident-facing public technology:** Service journeys, information architecture, content structure, accessibility-aware implementation, privacy-conscious data practice, public-safety review, source governance, and documentation of decisions and unknowns.
- **Web systems architecture:** JavaScript/TypeScript, React/Next.js, Ember.js, Python/Django, SQL, PostgreSQL/PostGIS, Node.js, Git/GitHub, Docker/Dokku, QGIS, APIs, open-data workflows, analytics, and low-cost cloud infrastructure.

EXPERIENCE

THICK ARTS LLC — Founder, Product & Technical Project Manager / Web Systems Lead

New York, NY / Remote | 2009–Present

- Lead end-to-end web product, design, and engineering engagements, turning ambiguous stakeholder needs into product direction, information architecture, requirements, sequenced releases, acceptance criteria, testing, launch plans, adoption materials, and handoff documentation.
- Led e-commerce, analytics, content, marketing, and operations for Harry J. Epstein Company, contributing to 2x revenue growth while helping an 80+ year-old industrial business modernize without losing its trusted voice.
- Build maintainable publishing systems, campaign hubs, resource libraries, data workflows, and web infrastructure; preserve product briefs, decisions, reusable patterns, and post-launch learning so teams can continue the work.

NYC Artist Coalition / FairRentNYC — Co-Founder, Civic Systems, Coalition Operations & Policy Communications Lead

New York, NY | 2017–Present

- Help turn stakeholder listening, public testimony, and coalition priorities into buildable plans, campaign websites, public forums, policy communications, calls to action, and sustained government-facing follow-through.
- Built and stewarded 30+ pages of shared campaign memory for a 2026 Commercial Rent Stabilization collaboration, connecting running minutes, decision records, action items, legal and policy questions, media assets, public-data framing, and city/state strategy lanes.
- Implement and maintain public-facing campaign systems; facilitate challenging meetings; brief and work directly with elected officials and staff; and represent the work in public testimony, presentations, and press while preserving collective credit and sensitive boundaries.

WOWList.org — Co-Founder, Product & Community Systems

New York, NY / Remote | 2015–2020

- Co-founded, co-built, and operated with Richard Caceres a natural-language community-calendar and discovery platform for DIY arts and music organizers, replacing a complex event form with collaboratively editable text, followable keyword communities, weekly digests, profiles, embeds, and calendar connections.
- Connected participatory discovery with hands-on implementation, organizer onboarding, support, adoption, public communication, instrumentation, and low-cost production operations across a distributed maintainer network.
- Operated across 35 city ecosystems, supporting local organizers who used WOW List to run community calendars, websites, and email lists for their own scenes.

CallNYC.org — Civic-Tech Builder & Product Translator

New York, NY | 2016

- Built CallNYC.org as an independent follow-on to the New York City Council's first CouncilStat hackathon, translating constituent-services data into resident-facing issue pages and next-step guidance; covered in [Politico New York](#).
- Took the civic prototype from problem definition and information architecture through implementation and public release. The archived site is unofficial and not a current City service.

KC Town Hall LLC — Co-Founder & Project Manager, Historic Restoration / Mixed-Use Development

Kansas City, MO | 2015–2024

- Co-led planning, public-benefit documentation, vendor coordination, and municipal compliance for adaptive reuse of an approximately 6,500 sq. ft. historic building into four commercial spaces and three homes.
- Helped deliver Tired of Tires, a recurring free resident service connecting household eligibility, form and phone intake, scheduled field collection, City recycling coordination, volunteer participation, and public result reporting; public records document Jamie's participation in pickup operations.
- Co-developed the successful CCED proposal and served as the City's named developer/presenter for a \$490,539 public funding request, remained a documented developer point of contact through compliance progress, and later transitioned the project to a mission-aligned organization.

ADDITIONAL LEADERSHIP

196 Artists Residency / Sunday Dinner — Founder & Systems Steward | Brooklyn, NY | 2012–Present

Created repeatable invitation, onboarding, facilitation, documentation, and continuity systems across 300+ gatherings and 20+ resident artists.

EDUCATION & PROFESSIONAL DEVELOPMENT

University of California, Santa Cruz — B.A., Film & Digital Media, Honors

AI Evals for Engineers & PMs — Shreya Shankar & Hamel Husain / Maven, 2026; application-centric evals, error analysis, annotation, traces, retrieval quality, and human-in-the-loop evaluation.

ADDITIONAL INFORMATION

Valid New York State driver's license. Authorized to work in the United States; no sponsorship required.
